

STARBOARDERS

music hope life

# MUSIC + HOPE = starboarders

We are STARBOARDERS. Our name refers to the right side of a ship. We are about turning the ship. We want to change the world. Changing the world is going to be a big task, and it takes a while to turn. Like a big ship, it will take a while and a lot of effort, but we have to be about turning this ship around – changing the world. So we are going to start with you, turning to the right, the better, the more abundant. We are ready to share, to serve and to be the change we want to see in the world.

**We play music that comes with a message of hope.**

Making music that people can believe in while creating anthems that shake the very core of rock is our goal. Our genre of music could be called Hope Rock and it is defined not only by the musical rhythms and style, but a message of hope to a world needing to something more than simply a song. People need to hear grace and love and acceptance and our songs meet this need. Our music is written from experiences of frustration, joy, and an intense desire to point others toward the horizon and the

rising sun that comes up every day giving us all a new beginning. We live believing that we are merely beggars, showing other beggars where to find food.

## HERE'S HOW WE (and YOU) ARE GOING TO CHANGE THE WORLD:

**The Problem** – Access to clean drinking water is a luxury we take for granted, but for 63% of the world, access to improved water sanitation is not available and 1.1 billion people on earth lack access to any source of clean water. Additionally, every 15 seconds, a child dies from a water-related illness, meaning 4,500 children die each die due to illness caused by unclean water. Overall over 3.5 million people die each year from water related disease.

**The Solution** - When you buy STARBOARDERS first full length album, CHROMA, you are saving a life because ALL proceeds from the album will be used to buy a water filtration device called a LifeStraw. A simple water filtration device, like the LifeStraw, can provide clean water , reduce morbidity and mortality rates, and allow another person to live a more fulfilling and productive life. Each LifeStraw ensures that right for a person for an entire year.

LifeStraw® is a portable water filter that provides up to 1000 litres of water and protects users against diarrhoeal diseases. LifeStraw® Family is an instant microbiological purifier that delivers at least 18,000 litres of clean and safe drinking water of US EPA standard. For more information, visit <http://www.vestergaard-frandsen.com/lifestraw/lifestraw>.

We are partnering with LifeStraw and Rotary International so that ALL proceeds from the sale of our new album CHROMA will go to give clean water to those in need.

We want to partner with you. We want to begin a revolution. So here's how you can help:

- BUY THE ALBUM
- FOLLOW US ON FACEBOOK AND TWITTER
- TELL YOUR FRIENDS TO DO THE SAME

By taking these simple steps there is chance that we sell more albums.

#### MUSIC

More album sales equals someone having clean water for a year.

#### HOPE

Clean water makes all things possible.

#### LIFE

We must be the change we want to see in the world. Start now. With us.
